**PAIN MANAGEMENT DELINATION OF PRIVILEGES**

Physician Name \_\_\_\_\_

<b>Procedure</b>	<b>Requested</b>	<b>Approved</b>
Percutaneous lysis of epidural adhesions using 2 or more levels		
Lysis of adhesions percutaneous		
Aspiration or decompression procedure, percutaneous, of nucleus pulposus of intervertebral disk, any method, single or multiple levels, lumbar (eg, manual or automated discectomy, percutaneous laser discectomy)		
Injection procedure for diskography, each level; lumbar		
Injection, single (via not indwelling catheter), not including neurolytic substances, with or without contrast (for either localization or epidurography), of diagnostic or therapeutic substances(s) (including anesthetic, antispasmodic, opioid, steroid, other solution), epidural or subarachnoid, cervical or thoracic		
Lumbar sacral (caudal)		
Extra foraminal lumbar discectomy		
Percutaneous implantation of neuro stimulator electrode array, epidural incision & subcutaneous placement of spine stimulator		
facet injection anesthetic and/or steroid paravertebral facet joint		
injection, anesthetic agent and/or steroid paravertebral facet joint lumbar or sacral facet block single level		
lumbar or sacral each additional level (list separately in addition to code for primary procedure)		
Injection, anesthetic agent &/or steroid, transforaminal epidural; cervical or thoracic, single level		
Cervical or thoracic, each additional level (list separately in addition to code for primary procedure)		
transforaminal nerve foot block additional level lumbar		
Stellate ganglion (cervical sympathetic)		
Destruction by neurolytic agent, paravertebral facet joint nerve; lumbar or sacral, single level		
Lumbar or sacral, each additional level (list separately in addition to code for primary procedure)		
Other peripheral nerve or branch		
Unlisted procedure, nervous system		
Diskography, cervical or thoracic, radiological supervision & interpretation		
Diskography, lumbar, radiological supervision & interpretation		
Radiological exam sacroiliac joint arthrography radiological supervision and Fluoroscopic guidance for needle placement (eg, biopsy, aspiration, injection, localization device)		
Fluoroscopic guidance and localization of needle or catheter tip for spine or paraspinous diagnostic or therapeutic injection procedures (epidural, transforaminal epidural, subarachnoid, paravertebral facet joint, paravertebral facet joint nerve or sacroiliac joint), including neurolytic agent destruction

## Physician Job Description

### Reports To: Medical Director and Board of Directors

**Position Summary:** The Surgeon should be a highly visible, working physician representing the Center to the medical community and the public.

The Physician should participate in and understand the centers budget. He/she should work in a collegiate way with the Administrator and the Nurse Manager to affect efficient and profitable operations.

### Qualifications:

A Physician shall be a physician who has successfully completed a residency program Accredited by the Accreditation Council for Graduate Medical Education or Approved by the American Osteopathic, or successfully achieved Podiatry Licensure. Member of the Medical Staff as a licensed independent practitioner, with active clinical privileges appropriate to the Center. Keeps abreast of national and federal regulations.

### Responsibilities:

1. Participates in orientation and educational activities.
2. Participates in staff orientation and staff educational activities.
3. Assures quality care is rendered in the Center.

### Work Environment and Hazards:

Hazards include risk of exposure to communicable diseases and hazardous substances, and the risk of physical injury from moving/ lifting patients and equipment, as well as operation of equipment. Work may be stressful at times. Interaction with others is constant and interruptive. Contact may involve with dealing with sick/and or persons under high stress/anxiety. While occasionally exposed to fumes or airborne particles and or toxic or caustic chemicals. The noise level in the work environment is usually moderate.

**Special Physical Demands:** The physical demands described here are representative of those that may be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is regularly required to stand, use hands, talk and hear. The employee must occasionally climb, stoop, or balance; kneel, sit, walk, use hands to finger, handle or feel objects, tool or controls; and reach with hands and arms. The employee must occasionally lift and/or move fifty (50) pounds and occasionally lift/move more than one hundred (100) pounds. Specific vision abilities required by this job include close vision, distance vision, peripheral vision, and the ability to adjust to focus

The above statements reflect the general outline considered necessary to describe the principal functions of this job. It shall not be construed as a detailed description of all work requirements of the job.
